Your wrangling should go here. If you need to do extensive processing of the chapters then please read in that output here and reference where I can find the other code.

Details matter: please be attentive to aspects of appearance and code style.

Analysis

This should include your analyses and interpretation.

Discussion

Here I am expecting two or three paragraphs

What did you learn?

What insights did you glean?

Technical Appendix

In a paragraph or two, describe what wrangling or analysis you did that went above and beyond what was discussed in chapter 19 of MDSR: <https://beanumber.github.io/mdsr2e/ch-text.html>
